NA’AH ILLAHEE FUND

2020 in Review

PNW Tribal Census 2020 Project
We distributed $800,000 in census grants to tribes and community. Thanks to the power of over 150 trusted messengers, as well as partners, tribes and generous donors, we saw record-breaking results. 79% of Tribes in WA State surpassed their 2010 census response rate.

Voter Engagement
Through the Voter Education Fund by The Seattle Foundation & King County Elections, we explored new avenues of outreach to ‘Get Out the Native Vote’. We engaged the voices of our youth and community so that we were seen, heard and responded to.

Native Community Crisis Response Fund
With the help of many, we have been able to support our communities through:

- Providing over 1,000 Indigenous Food Bundles
- Building Home & Community Gardens
- Providing grants to 45+ Indigenous Artists
- Redistributing $400,000+ back into communities

Yahowt
We created community-led gardens at UW’s Botanic Gardens with Black Star Farmers and launched the Sovereign Futures Cohort. SFC is comprised of Indigenous leaders across the US, working together to re-establish food sovereignty and sustainable practices.

Our mission is to support and promote the leadership of Indigenous womxn in the ongoing regeneration of Indigenous communities.
